

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

April 2, 2002

LB 1089

maybe to pick up some banking receipts or whatever, and then to transport those back to the bank. That is really all this bill does. It's...we move from the community to the county and then any adjacent county. Like I said, there are many others. If you were in Papillion, this would allow you to transact business in Sarpy County, go up to Douglas County. The town of Oxford, the county line almost goes right through there. This would allow them to transact business in Furnas County and Harlan County. Thank you. So that's all it does. It's not a big change. It just allows if you have a bank that you can do this mobile banking within your own county and then any adjacent county. With that, I would just ask approval of AM2695, and be glad to answer any questions.

SENATOR CUDABACK: Open for discussion on the amendment offered by Senator Jensen, AM2695. Senator Bromm.

SENATOR BROMM: Thank you, Mr. President. I would have a couple of questions for Senator Jensen, if he could answer, please.

SENATOR CUDABACK: Senator Jensen, would you respond to a question?

SENATOR JENSEN: Yes, Senator Bromm.

SENATOR BROMM: Senator Jensen, I'm not real familiar with this section and I had visions of a fifth-wheel with a safe on it behind a pickup, but apparently that isn't what this does.

SENATOR JENSEN: No.

SENATOR BROMM: Right now, if I'm reading the bill where you're amending it, it provides that you can have a mobile branch consisting of one or more vehicles which transact business within the corporate limits of the city in which the bank or branch is chartered. This extends that through the county and then you've inserted the language, and within counties which adjoin that county. Is that accurate?

SENATOR JENSEN: That is correct.
